

Grant application to the phospholipid research center

Instructions for the principal investigator

The template for research proposals provides guidelines for preparation of the grant application (mandatory language: English). A clear structure and mentioning of essential experimental details will provide a sound basis for the Scientific Advisory Board to enable an expeditious evaluation of the proposal by the Board.

Do not exceed 11 pages!

In case you have questions or suggestions for improvement, please do not hesitate to contact the Phospholipid Research Center.

You can submit the grant application and accompanying cover letter in electronic form (e.g. PDF).
